1999 - 2004

**Ternopil State 'Ivan Pul'uj' Technical University**

Bachelor of energy engineering

## LANGUAGES

English      **A2**

## PROFILE

I am a frontend developer. I am responsible and I like to learn and improve. I am constantly learning new technologies, trying to understand the essence.

At the same time, I am studying English, as I understand that it is very important for work in this field.

I am a very sociable person, it is easy to communicate with me. I love nature, traveling, new acquaintances.

I hope that the new job will be my path to something new and will open new horizons in my life.

## WORK EXPERIENCE

At the moment, I am freelancing using the technologies I have learned. I make landing pages, also in my work there is a multi-page site using Next.js, TypeScript, JavaScript, HTML & CSS, Git & GitHub, GRUD, MongoDB, React.
